CLIMA Care®

The heat programme
for wellbeing.

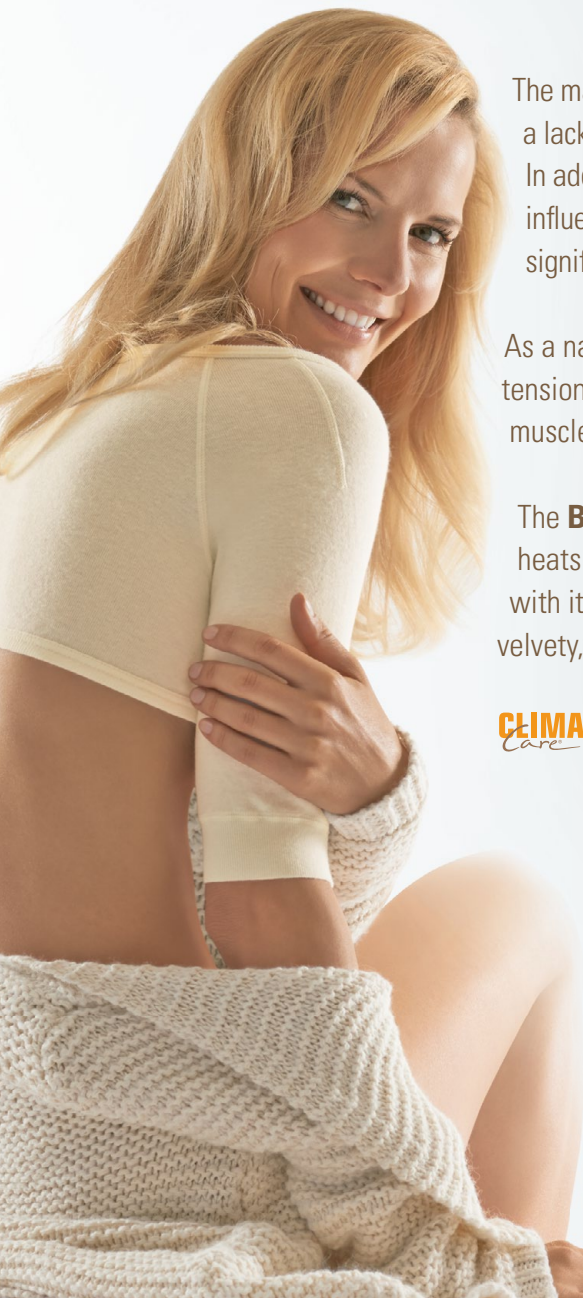

The gentle strength
of angora wool

BORT. Benefit at your side.

The heat programme
for wellbeing.

The major triggers for muscular tension include a lack of exercise and single-sided burdens. In addition to the body, the mind can also influence our muscular and pain situation significantly.

As a natural remedy, heat helps against tension as it promotes circulation in the muscles, thus providing a relaxing effect.

The **BORT CLIMA** heat programme heats affected areas particularly well – with its high share of Angora, it is light, velvety, soft and smooth on the skin.

CLIMA Care – heat feels so good

BORT CLIMA products are manufactured using raw angora wool and are humanely acquired by shearing angora rabbits.

Shoulder Warmer

- Protection from cold and draughts in the shoulder-neck area
- Material composition: 80 % cotton, 20 % angora
- Pack: Single item
