

Protects sensitive feet –  
with fabric cover

#### The PediSoft-Texline-Benefit

- > Cushions distribute the pressure optimally
- > Protection against additional external pressure
- > Comfortable to wear thanks to the textile cover
- > Optimal adaptation to each foot contour via the “Memory Effect”
- > After wearing, the material immediately reverts to its original shape
- > Delicate wash at 30 °C  
(with the exception of the Hammer Toe Correction Pad  
and the Pressure Protection)

incl. talcum  
powder for  
marked products

## Soft protection for sensitive feet

Day by day our feet have to achieve the highest performance, as they carry the total weight of the body. Prolonged standing, excess weight and inappropriate footwear lead to foot problems. Therefore, it is important to take precautions in time.

PediSoft® products protect all those areas of the foot that are particularly exposed to pressure and rubbing: the ball, sole and the area on and between the toes.

Gentle silicone & gel  
foot protection

### The PediSoft-Benefit

- > Extremely comfortable to wear due to the soft and smooth silicone & gel
- > Optimal adaptation to each foot contour via the "Memory Effect"
- > After wearing, the material immediately reverts to its original shape
- > Designed for frequent use, as hard-wearing, hygienic and durable
- > Easy to clean with soap, can be disinfected if required

incl. talcum  
powder for  
marked products
